MAJORS

Cottey College offers a wide array of majors built on one vision—helping women develop their potential for personal and professional lives of leadership, social responsibility and global awareness.

At Cottey, we work diligently to provide students with a quality education and the skills to start their careers. That's why *U.S. News & World Report* ranked Cottey the #1 best college in the Midwest Region in 2021.

Internships and Careers

While majors and minors are important, college isn't just about the curriculum. Our faculty and staff know how important internships are for career success. That's why our faculty members are heavily involved in helping students find internships. Not only does the College prepare students for internship searches, applications, and interviews, but our professors also help students make industry connections.

Our Career Services Center staff understand that students need to learn how to sell their skills using the language that matches that which employers are using. Cottey teaches students how to search for jobs and how to design a resume and cover letter so that their experience addresses the position requirements.

Cottey's Career Services Center combines personal attention with experiential learning. Career Service staff conduct a yearly workshop that teaches students

the skills they need to obtain internships and jobs. The crown jewel of the workshop is a mock interview process. Cottey arranges a panel of three industry-specific professionals for each student's mock interview. Afterward, the student has lunch with the professionals, enabling them to make contacts and learn about the industry from insiders. Lastly, each panel member writes a review of the student's interview, giving detailed feedback. It's no surprise that some students have found jobs through the panel members!

Majors

Biology
Business
Administration–
Management
Criminology
English
Environmental Studies
Health and
Biomedical
Sciences
International Business
International
Relations
Liberal Arts
Organizational
Leadership
Psychology
Secondary Education
