

Cottey College offers a wide array of majors built on one vision—helping women develop their potential for personal and professional lives of leadership, social responsibility, and global awareness.

At Cottey, we work diligently to provide students with a quality education and the skills to start their careers. That's why *U.S. News & World Report* ranked **Cottey the #1 Best College in the Midwest Region in 2022 - 2023.**

MAJORS

INTERNSHIPS AND CAREERS

While majors and minors are important, college isn't just about the curriculum. Our faculty and staff know how important internships are for career success. That's why our faculty members are heavily involved in helping students find internships. Not only does the College prepare students for internship searches, applications, and interviews, but our professors also help students make industry connections.

Our Career Services staff understands that students need to learn how to sell their skills matching the language potential employers are using. Cottey teaches students how to design resumes and cover letters that address their experience in relation to position requirements. Students are also shown effective ways to search for jobs.

Cottey's Career Services Center combines personal attention with experiential learning. Our Career Services staff conducts yearly workshops that teach students the skills needed to obtain internships and jobs. The crown jewel of the workshop is a mock interview process. Cottey utilizes a panel of industry-specific professionals for each student's mock interview. After each interview, panel members write a review of the student's interview, giving detailed feedback to improve future interviews.

Watch how our faculty make academics personal:
