

Experiential Learning: Key Points

- The psychology lab facilitates faculty and student study as well as replication studies necessary for research
- Cottey students have access to a mobile EEG to conduct research
- The entrepreneurial lab (the Chellie Club) provides a controlled environment to learn principles of running a business
 - Provides personal and professional development opportunities

Experiential Learning: Key Points, continued

- Cottey is the only women's college in the nation with a stock trading lab
- Used for finance classes and programs like Her Investment House, where students learn market principles in a controlled environment
 - Promotes personal and professional development
- The entrepreneurial lab (the Chellie Club) provides a controlled environment to learn principles of running a business
 - Provides personal and professional development opportunities

Experiential Learning: Key Points, continued

- Cottey's newest learning lab, the Jann Rudd Weitzel Education Lab, was dedicated during Seminar
 - Allows students to enter the classroom environment earlier to implement strategies learned through curriculum
- Cottey's Cadaver Lab offers hands-on learning to Health and Biomedical Sciences majors and Biology majors
- Experiential learning is a key element to the Cottey learning experience, preparing students for a competitive world

Seminar 2022

Experiential Learning: Hands-On Labs

Kristi Adams, Amanda Gilchrist, & Tammy Ogren
August 15, 2022

Using Laboratories to Enhance Student Learning

- Amanda Gilchrist—
Psychology Lab
- Tammy Ogren—
Stock Trading and
Entrepreneurial
Labs
- Kristi Adams—
Education Lab and
Cadaver Lab

Cottey College's Psychology Lab

- The Psychology Lab was created through P.E.O. Foundation funds in 2016 to enhance student learning in psychology courses and to permit student research.
- Research in the Psychology Lab not only includes studies by faculty and students, but also replication studies that are performed by research methods classes.

Looking to the Future: Mobile EEG

- Use of mobile EEG to examine attention and memory
- Once again using the lab space for replication studies so that students can collect hands-on data

Entrepreneurial Lab - Chellie Club

- Student-driven interest
- Objectives
- Learning outcomes

Professional Development

- Start-up
- Professional technology and software
- Crisis management
- Financial responsibility
- Supply-chain management
- High-performing team traits
- Leadership
- Marketing
- Operations
- Finance

Personal Development

- Individual goals and assessment
- Conflict management
- Communication - feedback
- Reliance on each other
- Customer service
- Meeting high expectations
- Avoiding low standards
- Skills - resume

Stock Trading Lab Her Investment House

Personal Development

- Individual goals and assessment
- Conflict management
- Communication - feedback
- Reliance on each other
- Customer service
- Meeting high expectations
- Avoiding low standards
- Skills - resume

Personal Development Example

I purchased **NextEra Energy Inc. (NEE)** shares just because the stock price was going up. I thought it was a good decision. The next day it was going down. Doing research is so important because it helps analyze and make wise decisions before purchasing.

At the beginning of the semester I was so afraid to spend all the money I had. But thanks to discussions in class, I learned that a dollar tomorrow is worth more than a dollar today. We have to be risk takers. When I bought **Macy's Inc (M)**, the price was \$8.78 and I only bought 135 shares. **Macy's Inc (M)** is doing good and the price went up. I should have bought more shares.

Action	Symbol	Desc.	Qty	Curr.	Price Paid	Last Price	Day's Chg	Profit/Loss Local/FX	Mkt Value (USD)	%
TRADE	+ M	Macy's Inc.	135	USD	\$8.78	11.52	-0.15	369.90	\$1,555.20	31.21%

Jann Rudd Weitzel Education Lab

- Emphasizes care, professional knowledge, relational intention.
- Supports a safe, physically appropriate space where our students can have relational teaching modeled.
- Provides students with opportunities to enact relational teaching.

Education Lab Spaces

- Teaching Demo Room
- Observation Room
- Resource Room
- Collaboration Area
- Faculty Offices
- Education Library Collection
- Juvenile Library Collection

Cadaver Lab

- For use in Health and Biomedical Sciences and Biology
- Cadaver Dissection and Prosection I & II
- Real-world experience and opportunity
